INTRODUCTION

TechSphere is a 21st-century innovative-driven consulting firm focused on providing cutting-edge solutions to our ever-growing list of clients in the East African region. TechSphere was established in 2020 by young, vibrant futuristic technocrats to provide much-needed technical skills to organisations and multinational companies.

About

TechSphere is a research-geared consulting incorporation company for development founded in 2020 under the Kenya Companies Act (CAP 486) to provide quality services within the wider East African Community purposefully to come up with reliable data and efficiently utilise the data through research, evaluation, and training.

At TechSphere, we unlock potential using our comprehensive portfolio of intelligent technology and services. We have extraordinary people who work tirelessly to deliver value to our clients and communities across the Middle East and Africa. We help create businesses for our clients and a better world for everyone.
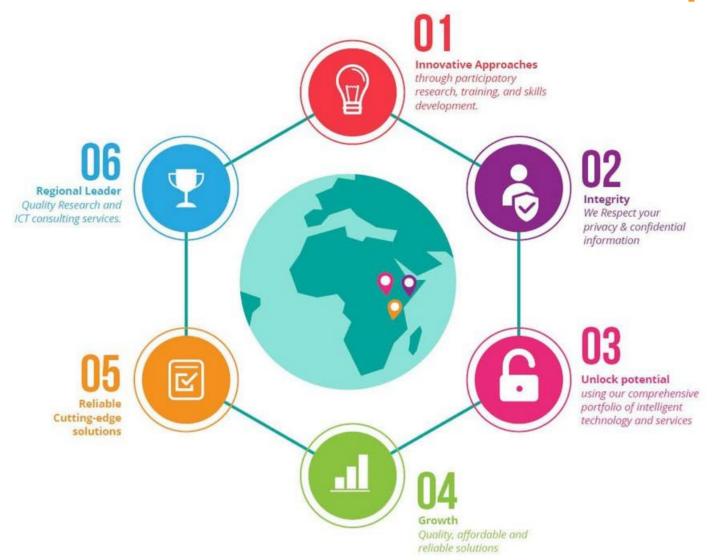

Specialisation

Community-benefit assessment and planning and engaging non-profit organisations for development is our specialty. Business Entities, program evaluation measurement, community needs assessment, ICT consultancy data collection, and analyses, professional writing, cybersecurity, project management, and training are our main areas of operation.

Backbone

Training and consulting services serve as our core business as we strongly believe in building human capacity for quality results. We believe in investing in people to help each other grow.

Our Services

CUSTOM SOFTWARE SOLUTIONS

Techsphere's custom software solutions are designed to address the unique needs and challenges of your business, providing tailored technology solutions that drive efficiency, productivity, and growth. Our team of experienced developers works closely with you to understand your business requirements and develop software that meets your exact specifications.

WEB DESIGN & HOSTING

Our expert team combines creative flair with technical expertise to craft custom website designs that reflect your brand identity and engage your audience. From responsive layouts to intuitive navigation, we ensure that your website not only looks stunning but also functions seamlessly across all devices. Pairing our design prowess with reliable hosting services, we ensure that your website is not just beautiful but also fast, secure, and always accessible.

ICT CONSULTING

Our experienced consultants work closely with you to understand your business objectives and challenges, crafting tailored ICT strategies to address your specific needs. From digital transformation and IT infrastructure optimization to cybersecurity and cloud computing, we offer a comprehensive suite of consulting services to help you harness the power of technology for growth and innovation.

NETWORK & CYBER SECURITY

Our expert team offers a comprehensive suite of solutions tailored to safeguard your data, systems, and networks. From risk assessments and security audits to implementation of robust security measures, we work diligently to ensure that your organization is protected against cyber attacks. With a proactive approach to security, we help you stay one step ahead of cyber threats, giving you the peace of mind to focus on your core business activities.

Our Advanced Solutions

POINT OF SALE SOLUTIONS

Our POS system is more than just a tool—it's your gateway to seamless transactions, streamlined operations, and unrivaled customer satisfaction. Say goodbye to long checkout lines and manual inventory management—our intuitive POS software and sleek hardware ensure lightning-fast transactions, accurate inventory tracking, and real-time reporting, empowering you to make data-driven decisions and stay ahead of the competition.

E-AFYA HOSPITAL INFORMATION MANAGEMENT SYSTEM.

E-Afya HMIS puts everything you need at your fingertips, empowering your staff and improving patient care. It's the future of hospital management, all in one place.Imagine your hospital running like a well-oiled machine. That's the power of E-Afya HMIS. Our integrated system acts as your central nervous system, connecting all departments seamlessly

HUMAN RESOURCE MANAGEMENT SYSTEM

Our HRIS is not just a software—it's a game-changer for your HR operations. From simplifying recruitment and onboarding to automating payroll and performance management, our comprehensive solution streamlines a wide range of HR tasks, saving you time and reducing administrative burdens. Our HRIS is designed to be your strategic partner, centralizing employee data and processes to empower your HR team to make informed decisions and drive strategic initiatives.

PROPERTY MANAGEMENT SYSTEM

TechSphere proudly introduces our Real Estate Management System (REMS), a robust solution designed to streamline property management, ensure compliance with Kenyan building laws and regulations, and drive efficiency in real estate operations. With TechSphere REMS, property managers can efficiently manage properties, leases, and tenants while adhering to legal requirements
